EDUCATION

B.Tech in Computer Engineering

2023 – Present

Chhotubhai Gopalbhai Patel Institute of Technology, Uka Tarsadia University, bardoli

CGPA:- 8.83/10

Ashadeep iit, Surat

HSC - Science-Marks:- 72.10%

KEY TECHNICAL PROJECTS

Smart Kisan App (Developed during Codeversity x IIT Gandhinagar Hackathon)

React.js, node.js, mogoDB, Taiwind Css,Generative AI model

- Architected an AI-powered web solution for the small holder farmers it's provide real-time agricultural risk assessment and decision support.
- Integrated **AI crop analysis**, **real-time weather/market tracking**, and **AI chat support** to provide comprehensive, data-driven farmer assistance.

SciViz 3D — Interactive Science Visualization Platform

React.js, Three.js, Node.js, MongoDB, Python FastAPI, MediaPipe, Claude AI

- Engineered a full-stack 3D science education platform with **60+ interactive experiments** mapped to **Class 10 & 12 NCERT/CBSE curriculum** covering Physics, Chemistry and Biology.
- Built immersive **Simulation World** with **real-time hand gesture control** using MediaPipe — students physically grab, rotate and inspect 3D science objects via webcam.

V-Try (AI-Powered Virtual Try-On)

React.js, node.js, mogoDB, Taiwind Css,Hugging face AI model

- Developed a web platform utilizing **Image-to-Image models** to execute realistic, real-time virtual apparel overlays.
- Enabled high-fidelity visualization by allowing users to virtually try on any clothing item through seamless, AI-driven image generation.

SKILLS

Programming Languages: Python, TypeScript, JavaScript, C/C++,Java

Frontend: React.js, Next.js, Three.js, HTML, CSS, Tailwind CSS

Backend: Node.js, Express.js, MongoDB, Supabase, WebSockets

AI & Machine Learning: MCP protocol, Hugging Face, Generative AI, Predictive Modeling

Development Tools: Docker, Git, GitHub

Additional: Search Engine Optimization (SEO), Unit Testing, Load Testing

HACKATHONS & ACHIEVEMENTS

Codeversity National Level Hackathon (IIT Gandhinagar)

Ranked top 5 Finalist of domain Successfully moved from concept to functional prototype in the AI domain (Team Coffee&&Commit).

Smart India Hackathon (SIH)

Participated in the national-level initiative to solve pressing digital innovation challenges.

InnoSprint

Achieved Top Finalist status in a competitive inter-college hackathon, solve real-life problems with software

PROFESSIONAL TRAINING & CERTIFICATIONS

Artificial Intelligence Workshop | IIT Gandhinagar

Participated in a specialized AI workshop held during the Codeversity National Level Hackathon.

Drone Technology Hands-on Training | SVNIT, Surat

- Mastered UAV mechanics, flight controller calibration, and autonomous navigation through intensive hands-on training.Developed technical proficiency in **UAV flight dynamics** and embedded systems.
