📍 Gujarat, India

EDUCATION

Uka Tarsadia University, Bardoli
B.Tech, Computer Engineering

CGPA:- 8.83/10

2023 – Present

Ashadeep IIT - HSC

Science-Grade:- B1

2021 – 2022 | Surat, Gujarat

PROFESSIONAL EXPERIENCE

Artificial Intelligence Intern

05/2026 – 06/2026 | Surat, India

Codlens Innovations 🔗

FitLook — AI Virtual Trial Room, Full-Stack Product (Lead Developer)

Live 🔗

Next.js, React.js, FastAPI, Supabase, Python, Hugging-Face, Razorpay, Tailwind CSS

- Architected an end-to-end AI-powered **virtual trial** room platform for fabric and tailor shops, enabling customers to visualize any unstitched fabric as a finished garment on themselves in real-time before purchasing.
- Integrated **Multi image-Diffusion Model**, photo upload pipeline, garment type selector, and scroll-driven 3D immersive landing experience with GSAP.

KEY TECHNICAL PROJECTS

InterviewAI — AI-Powered Interview Coaching Platform

Live 🔗

Next.js, FastAPI, Supabase, Redis, LangGraph, Mem0, Whisper API(groq), Docker

- Developed a **real-time** interview assistant featuring **live audio transcription**, LangGraph-powered **coaching agent**, and resume-aware question generation all this using **NVIDIA NIM** and **Groq** free-tier LLMs.
- Engineered a multi-service backend (**Node.js Socket.io + Python FastAPI + Redis pub/sub + pgvector**) with Whisper-based transcription pipeline, document-pipeline, circuit breaker fallback, and **Mem0** long-term user memory across sessions.

Smart Kisan App - AI-powered Integrated Farm Decision & Risk Support System

Live 🔗

Developed during Codeversity x IIT Gandhinagar Hackathon

React.js, node.js, mogoDB, Taiwind Css, Generative AI model

- Architected an AI-powered web solution for the small holder farmers it's provide real-time agricultural **Risk assessment** and **Decision support**.
- Integrated **AI crop analysis**, **real-time weather/market tracking**, and **AI chat support** to provide comprehensive, data-driven farmer assistance.

SKILLS

Programming Languages: Python, TypeScript, JavaScript, C/C++, Java

Frontend: React.js, Next.js, Three.js, HTML, Tailwind CSS

Backend: Node.js, Express.js, MongoDB, PostgreSQL, WebSockets

AI & ML: RAG, Langchain, Langgraph, VectorDB, Mem0, MCP, Gen Ai, Agentic Ai

Tools: Git, GitHub, Docker, Supabase, Vercel, Render

ACHIEVEMENTS & CO-CURRICULAR ACTIVITIES

Codeversity National Level Hackathon - IIT Gandhinagar 🔗

- Ranked **top 5 Finalist** of domain Successfully moved from concept to functional prototype in the **AI domain** (Team Coffee&&Commit).

Drone Technology Hands-on Training, SVNIT, Surat 🔗

- Mastered UAV mechanics, flight controller calibration, and autonomous navigation through intensive hands-on training.
- Developed technical proficiency in UAV flight dynamics and embedded systems.

Smart India Hackathon (SIH)

Participated in the national-level initiative to solve pressing digital innovation challenges.

InnoSprint 🔗

Achieved **Top Finalist** status in a competitive inter-college hackathon, solve real-life problems with software
